**RE: LETTER OF RECOMMENDATION ON AMAKHAZA MOIA CC
SUBCONTRACTING AIRCONDITIONING COMPANY**

We have been associated with Amakhaza Moia CC for many years and have watched them grow from a small contracting company, installing and servicing split airconditioning units to a larger company doing major airconditioning and ventilation installations.

Amakhaza Moia CC is now a well-established servicing and contracting company with their Head Office based in Durban, Kwa-Zulu Natal. In the past couple of years, they have been involved in large contracting projects.

They have successfully completed an airconditioning and ventilation installation for us at the SAPS Durban Central for the sum of R 7.9 Million. Their work was of a very high standard, which they have maintained throughout the construction period.

Amakhaza Moia CC have worked closely with LSG International and key local development partners, prominent architects, quantity surveyors, engineers and landscapers to deliver total solutions, often fast-tracking projects to meet tight deadlines.

Amakhaza Moia CC has proven to offer high quality workmanship and exceptional safety standards through repeat business. They have also handled all projects with professionalism.

We therefore would not hesitate to recommend this company for projects of any capacity.

Should you require additional information; please do not hesitate to contact the underwriter.

Thanking you.

Yours faithfully

D. Govender (Ganny)
Mech. Consultant
